Since the beginning of my professional career, I was always between *design* and *technology*. I was growing in both areas - *frontend* engineering and *ux design*. After some time I took a hat of a *product lead* position. I've learned to work with customer feedback and *scoping*. On top of that, I started working with *design systems* which is my apple of the eye.
Currently I'm concentrating mostly on frontend engineering and with my experience and knowledge, I'm able to feel comfortable moving around and understanding context of every stage of building a product and feature as well as *leading* teams.

PROFFESIONAL EXPERIENCE

staff frontend engineer & product owner / design systems
april 2023 – persent | 10 mos • Adverity • Vienna, Austria / Remote

- developing a *typescript* and *react* based internal Design System
- led *product ownership* of the Design System by developing a comprehensive scope for the team's *roadmap* (short and long-term) and creating essential documentation for business approval.

senior frontend engineer / design systems
august 2022 – mar 2023 | 8 mos • Adverity • Vienna, Austria / Remote

I was building react and *typescript* based Adverity's Frog Design System and supporting product teams in implementing design system standards during feature development. Using *Storybook* for documenting and LostPixel for *visual regression* testing and *cypress* for integration testing.

design systems & ux consultant
march 2021 – present | 2 yrs 11 mos • bartoszdebicki.com • Gdynia, Poland / Remote

I'm helping companies in Design Systems & user experiance areas.

Selected companies I helped: Software Development Academy, Intelliseq, Brainly and UXPin

senior design technologist / tech lead
october 2018 – april 2022 | 3 yrs 7 mos • UXPin • Gdańsk, Poland

- as a design technologist, I was *developing* and *designing* the UXPin Merge feature, and leading (*scoping, prioritizing, feedback analyzing*) and developing the internal react based UXPin design system;
- as a tech lead, I was responsible the frontend side of UXPin;
- as a leader, I was *leading and managing the team* of UI developers in the company, and was *involved in the recruitment* process to the Engineering team by validating candidates on the first call, and supporting the team on technical interview;

ux designer & senior webdev / product lead

september 2013 – september 2018 | 5 yrs 1 mo • UXPin • Gdańsk, Poland

- as a product lead, I was responsible for *managing the scope* and coordinating the work of the Development Team on a few key projects in UXPin like 2 editor redesigns, a dashboard redesign, and a partnership with Adobe Typekit; I was also a contact product person for the customer support team.
- as a UX designer, I was responsible for creating *wireframes*, complex *prototypes* with *documentation*, and taking care of good user experience based on their feedback analysis.
- as a webdeveloper, I was responsible for building the editor's UI using *react*, *less*, *webpack*, and *jest*; I was also responsible for creating architecture of styles and building *electronjs* based UXPin desktop client.
- in my responsibilities was also participating in *hiring* and onboarding new UI developers.
- I was leading and developing our internal *design system.*

cpo & co-founder

september 2012 – july 2014 | 1 yr 11 mos • taniprzeglad.pl • Gdynia, Poland

I was responsible for the product side of the project including product management, visual design, user experience, html/css/js code.

senior front-end webdeveloper

april 2012 – august 2013 | 1 yrs 5 mos • nokaut.pl • Gdynia, Poland

front-end webdeveloper

may 2011 – may 2012 | 1 yrs 1 mo • nokaut.pl • Gdynia, Poland

During my work in nokaut.pl I was responsible for writing HTML/CSS code for the nokaut.pl portal in both desktop and mobile version (using *RWD*). Each day I tried to work as close as I can with visual and ux designers to provide the best quality of the product.

webmaster / webdesigner

august 2008 – april 2011 | 2 yrs 9 mos • zjednoczenie.com • Gdańsk, Poland

I was working on building and maintaining websites for MTV Networks (MTV, VIVA, VH1, Nickelodeon), CCC, LPP (Reserved, Cropp, House), Axel Springer and Milka.

webmaster / webdesigner

november 2006 – july 2008 | 1 yrs 9 mos • engine • Sopot, Poland
